2011 is the Year of the CCAF

[E-Mail This Article](#) [Print This Story](#)

There has never been a better time than now to start on your path to educational success. 2011 is the Year of CCAF throughout the Air Force and marks a time when all Andrews Airmen can prosper with the help of our Education and Training Center.

Gen. Donald Hoffman, Commander, Air Force Materiel Command, said, "AFMC's YoCCAF will emphasize the need for enlisted Airmen to earn college degrees, specifically a CCAF degree. Currently, 24 percent of AFMC's enlisted Airmen have earned degrees through CCAF, and our goal is to increase this by 10 percent in 2011. With 67 degrees in 5 general areas, CCAF provides career-specific education for enhanced performance as technicians and noncommissioned officers."

Joint Base Andrews has met this challenge with eager anticipation to not only reach this goal but to be the base with the highest percentage of CCAF graduates in the Air Force. Andrews already has the honor of being No. 1 in our region in 2010, so it is a very realistic goal.

Donna Artley, Chief of Education and Training here at Andrews is determined to offer the best support available in the Air Force.

"We already have a great support staff here to assist from picking out the right school to setting up your first Tuition Assistance form," she said. "Reaching out to our squadrons about these wonderful services available here in Andrews is our top priority."

Outreach briefings will be available to all squadrons and are provided by our Education Counselors.

"Many Airmen have a difficult time coming to us. We will rectify this by coming to them," Ms. Artley said.
